FROM: TLMA-TRANSPORTATION:

SUBJECT: TRANSPORTATION AND LAND MANAGEMENT AGENCY/TRANSPORTATION:
Approval of Funding Agreement for the Upstream Extension of the Stoneman
Street Channel Project, Project No. 3-0-00060, 1st District. Total [$275,000],
Local Funds 100%

RECOMMENDED MOTION: That the Board of Supervisors:
1. Approve the Funding Agreement (Agreement) between the Flood Control and Water
Conservation District (District) and the County of Riverside (County); and
2. Authorize the Chairman to execute the Agreement on behalf of the County.

ACTION: Policy

Patricia Romo, Director of Transportation 5/31/2017
C.E.O. RECOMMENDATION: Approve

BACKGROUND:
Summary
The County Transportation Department and the Flood Control and Water Conservation District wish to construct flood control improvements on Stoneman Street in the community of Lakeland Village. Stoneman Street is an existing dirt road that conveys flows tributary to the Lakeland Village area and ultimately to Lake Elsinore. A portion of Stoneman is paved just west of Grand Avenue and it has an inverted cross section to carry flows to Grand Avenue. The County is proposing to extend the paving of the inverted roadway westerly an additional 2,600 feet to reduce erosion and sediment delivery to Grand Avenue and enhance access to existing residences along Stoneman. The District will contribute a lump sum amount not-to-exceed $275,000 towards the actual project construction. Upon completion of construction, the County will accept sole responsibility for the ownership, operation and maintenance of the project.

The approval of this Funding Agreement is not a commitment to proceed with any particular project involving the above described flood control improvements and is not an approval of a project. The approval of any such project is contingent on completion of the CEQA review. The County will comply with the requirements of CEQA analysis when necessary for any future project as described in the Funding Agreement. The proposed project will not increase the use of the road, result in increased development or impacts, or lead to any direct, indirect, or cumulative physical environmental impacts.

County Counsel has approved the Agreement as to legal form. A companion item appears on the District’s agenda this same date.

Impact on Residents and Businesses
Upon construction completion, the project will provide enhanced access to existing residences, while reducing erosion and sediment delivery to the intersection of Grand Avenue and Stoneman Street.

SUPPLEMENTAL:
Additional Fiscal Information
The total cost of construction is expected to be $450,000 and will be funded with $275,000 of Zone 3 District funds and $175,000 District 1 Community Improvement Designation Funds.
separate agenda item for approval of a project and any construction activity will follow on a future date.
