Project Title: Burlington Northern and Santa Fe Bridge Project

97071087 State Clearinghouse Number
    Mike Wong Responsible Agency
    951.955.1233 Area Code/Telephone/Extension

Project Location (include county):
The proposed project is located approximately 2.25 miles downstream of the Prado Dam outlet between Reach 9, Phase 2A and 2B of the Santa Ana River in the city of Corona, Riverside County, California. See Attached Figure 2.3 (Reach 9 Vicinity Map) for more information.

Project Description:
The proposed project consists of flood control improvements to the Burlington Northern and Santa Fe Bridge (BNSF) that will be constructed by the U.S. Army Corps of Engineers (Corps). The District, as a CEQA responsible agency, may take discretionary actions for this project including, but not limited to, the following: acquiring right-of-way, coordinating utility relocation, issuing encroachment permits and entering into agreements. Pursuant to CEQA and NEPA, the County of Orange as the CEQA lead agency and the Corps as the NEPA lead agency certified the Final Supplemental Environmental Impact Statement/Environmental Impact Report (SEIS/EIR) for the Prado Basin and Vicinity, Including Reach 9 and Stabilization of the Bluff Toe at Norco Bluffs in December, 2001. The District’s Board subsequently adopted Findings, mitigation measures and Statement of Overriding Considerations for the SEIS/EIR in June 2011. For the BNSF project, the Corps and County of Orange prepared two (2) Supplemental Environmental Assessment (SEA)/CEQA Addenda to the SEIS/EIR in July 2015 and April 2017 to address minor technical project changes associated with the BNSF project. The District has reviewed the SEA/CEQA Addenda to the SEIS/EIR and has made the determination that none of the conditions described in Section 15162 of the CEQA Guidelines calling for the preparation of a subsequent EIR have occurred.

This is to advise that the Riverside County Flood Control and Water Conservation District has considered the Addenda and approved the above-described project on June 20, 2017 and has made the following determinations regarding the above described project:

1. Pursuant to CEQA, the District considered and accepted the Addenda as prepared by the Corps and County of Orange.
2. The project will have a significant effect on the environment.
3. Mitigation Measures were made a condition of the approval of the project.
4. A statement of Overriding Considerations was adopted for this project.
5. Findings were made pursuant to the provisions of CEQA.

This is to certify that the record of project approval is available to the General Public at:

The Office of Clerk of the Board, County Administrative Center, 4080 Lemon Street, Riverside, CA 92501
