SOURCE OF FUNDS: Departmental			Budget Adjustment:	No
			For Fiscal Year:	19/20

C.E.O. RECOMMENDATION: Approve

BACKGROUND:

The Riverside University Health System-Medical Center (RUHS-MC) includes a 439-bed Medical Center in Moreno Valley, 12 Community Health Clinics, and several primary and specialty clinics throughout Riverside County. RUHS has been the foundation of health care, community wellness, and medical education in Riverside County for more than 100 years and employs about 6,000 individuals. On March 30, 2020, the RUHS-MC plans to open a new Medical Surgical Center (MSC). The MSC will include a new specialty imaging department with Positron Emission Tomography – Computed Tomography (PET/CT) imaging technology. The PET/CT imaging technology will provide appropriate support to Physicians in order to diagnose and provide care to patients with a variety of conditions such as heart disease, brain dysfunction and cancer. A classification study yielded that the establishment of a new classification of PET/CT-Technologist is necessary in order to continue to provide the highest level of care to patients and fully support the new MSC.

Classification Addition:

PET/CT Technologist: It is recommended to add this classification to the Class and Salary Listing at salary plan/grade SEU 702/L11 (\$83,575 - \$109,070). Once the new classification is established, the department will submit a Classification Transaction Request to exchange two Radiologic Specialist II positions for the addition of two PET/CT Technician positions resulting in an approximate cost increase of \$11,090 for the remainder of FY 19/20 and \$22,180 for FY 20/21.

Impact on Residents and Businesses

There is no impact to residents or businesses.
